

David Tellis

Product Designer · UI/UX Designer · Design Systems · Visual Designer

Based in India (Bengaluru) · Available Remote | davidtellis12@gmail.com | +91 8088716380 | [Portfolio](#) | [LinkedIn](#)

SUMMARY

Product Designer with 3 years designing complex **B2B**, **Enterprise**, and consumer products, from early research through shipped production UI. I own **end-to-end design** across four concurrent portfolio companies at Turbostart, covering enterprise analytics, HNI investor workflows, and consumer marketplaces, while building and extending the **design system** as new features ship. I use AI tools daily, **Claude Code** and the **Figma MCP**, to close the gap between design and what actually ships. Comfortable working independently and presenting design rationale directly to Product, Engineering, and stakeholders.

EXPERIENCE

Product Designer at Turbostart (VC Portfolio Studio)

*Sole Product Designer across 4 portfolio companies · Mar 2024 – May 2026**

- **End-to-end product design.** Sole designer across 4 portfolio companies: Wedding Verse (consumer marketplace), TurboCloud (enterprise analytics), VYBE (**B2B** for HNI investors), and BAM (talent marketplace). Owned each from research through shipped production UI.
- **Consumer & enterprise outcomes.** Cut Wedding Verse onboarding from 3 hours to 15 minutes (**92%**), with retention up **28%**, discovery up 63%, and **response rates up 42%**. Drove TurboCloud adoption up **35%** and cut navigation by **40%** across 5 personas. Compressed VYBE due diligence to 10 minutes across 15M+ data points.
- **Design systems.** Built and extended a 120-component system across 8 pattern libraries and 2,000 **Figma** frames. Cut design-to-dev revision cycles by **30%**.
- **Collaboration & mentorship.** Presented design rationale directly to founders, PMs, and engineers across all four products. Mentored 2 to 3 junior designers through structured reviews.

Freelance Product & UI Designer

International consumer & SaaS clients · Remote · 2024 – Present

- **Consumer mobile & e-commerce.** Designed the mobile ecom app for Vorn AI, a Dubai fashion platform with **AI Virtual Try-On**. Redesigned MedPass (India healthcare mobile) with a streamlined patient payment flow and positive post-launch user feedback.
- **AI product launch.** Designed FutureCraft AI, an **AI** content **SaaS**, from brief to launch. The Brand DNA onboarding flow generated 300+ waitlist signups within 2 weeks of launch.
- **Brand identity & motion.** Delivered identity systems for godgodo, CURRY, and independent artists across logo, typography, colour, and application. Motion work with Rive, Spline, and Lottie for brand and product surfaces.
- **Design systems** for clients. Delivered 100+ reusable component libraries with Auto Layout, tokens, and implementation-ready developer handoff across multiple client products.

Website Designer & Developer at Glee and Glint Media

Managed and designed Marketing websites with 6-person team · Mar 2023 – Feb 2024

- Designed and shipped custom client websites end-to-end, from wireframes and visual design through front-end implementation in HTML, CSS, and JavaScript, while managing a 6-person team of designers and developers.

SKILLS

Product & Systems

- **Design Execution.** End-to-end expertise in UI/UX, interaction design, and information architecture. Proficient in user flows, wireframing, prototyping, and usability research.
- **Design Systems.** Building and scaling component libraries with design tokens, typography systems, auto layout, variables, and implementation-ready documentation.

AI & Enterprise

- AI-Native UX. Specialized in conversational AI, agentic UI, and streaming outputs. Designing for empty and uncertainty states, NLP search, and streamlined AI onboarding.
- B2B & SaaS. Constructing complex workflows for data-heavy enterprise dashboards. Managing multi-persona architecture through progressive disclosure and role-based UI.

Craft & Frontend

- Responsive design, mobile-first design with a focus on micro-interactions, motion, and pixel-perfect visual hierarchy. Adherent to WCAG accessibility standards.
- Development Synergy. Technical proficiency in HTML, CSS, JavaScript, React, and TypeScript to bridge the gap during design-to-code handoff.

Tools & Workflow

- Design Stack. Expert use of Figma, Adobe XD, and creative suites. Motion and 3D work using Rive, Spline, and Lottie.
- AI Integration. Leveraging Claude Code, Figma MCP, and Google AI Studio to accelerate prototyping and production-ready output.

EDUCATION

Master of Computer Applications (MCA)

Mysore Open University · In Progress

Bachelor of Computer Applications (BCA)

Davangere University · 2022
