

Customer-obsessed UX/Product Designer and Researcher with experience of 3 years, delivering 8+ MVPs, end-to-end design solutions across B2B and B2C platforms at scale. Expert in user research, usability testing, interaction design, and design systems, with a strong foundation in front-end development. Proven track record of driving measurable impact—35% adoption lift, 40% workflow reduction, 100+ component design system. Skilled at diving deep into data, working backwards from customer needs, and collaborating cross-functionally to ship accessible experiences at scale.

Areas of Expertise

Collaboration

- Agile Sprints
- Cross-Team Communication
- Developer Handoff
- Mentoring
- PRD Creation
- Client Communication

UX Skills

- User Research
- Service Design
- User Flows
- Usability Testing
- Journey Mapping
- Wireframing

UI Skills

- Interaction Design
- iOS/Web
- Typography
- Micro-interactions
- Colour Systems
- Motion Design

Systems & Product

- Design System
- Service Design
- Product Thinking
- Accessibility (WCAG)
- Reusable Assets
- Systems Thinking
- Advanced Prototyping
- AI Design Tools
- FigJam
- Design Tokens
- Design-Engineering Handof
- Figma Variables
- Accessibility (WCAG)

Experience

Product Designer | Turbostart (Venture Capital) Mar 2024 - Present

- Sole Product Designer on multiple portfolio companies, owning end-to-end design across all product initiatives (Wedding Verse, Turbo-cloud, BAM, Ideabaaz) while managing and mentoring Junior designers to raise the bar on design quality.
- Delivered 8+ MVPs and built scalable design systems for government portals, e-commerce platforms, and B2B tools, cutting design-to-dev turnaround by 30%.
- Led user research, personas, and journey maps that shaped 3 product launches.
- Leveraged AI tools (Figma Make, Google AI studio, Lottie) for rapid prototyping and micro-interactions in code, reducing design-to-development handoff cycles and raising the bar on UI polish.
- Designed responsive, pixel-perfect UIs for web and mobile, ensuring multi-platform accessibility and consistency.
- Improved TurboCloud experience for multiple personas to with user-centric features, AI features and by improving the Visual for Analytical metrics for the stakeholder with interactive Dashboards.
- Integrate AI-driven workflows into the discovery phase to synthesise user research data, accelerating the transition from problem definition to rapid prototyping workflows for clients like Boston Financials
- Built & maintained design systems that improved developer handoff accuracy and reduced rework
- Collaborated closely with developers, PMs, and stakeholders to translate product requirements into high-performing interfaces.
- Drove design sprints and rapid iterations aligned with startup timelines.
- Established system-driven design practices that scaled across cross-functional teams, Product Managers and Engineers.

UI Designer | Freelance Since 2024

- Redesigned MedPass - Healthcare Mobile application which helped users avail their discounts on healthcare payments.
- Visualised AI Branding Desktop Application (FutureCraft AI) With colour system and workflows for modules related Generative AI, System Configuration.
- Delivered a scalable design system (Light/Dark mode) and a reusable component library of 100+ components, reducing design-to-dev handoff time by 30%.
- Coordinated with developers, marketing, and clients to ensure timely delivery.
- Lead a Product experience for E-com app, VORN AI Implementing tech first features like Virtual Try on for mobile application and operative stakeholders and optimised Information Architecture, for Vendor and warehouse operations
- Implemented feedback-driven revisions and improved UI clarity and user experience on every Iterations.

Website Designer/Developer | Design Studio Mar 2023 - Feb 2024

- Designed and redesigned WordPress and custom websites for multiple clients.
- Created conversion-focused landing pages aligned with brand identity.
- Managed a Team of 6, across departments to have smooth operations.

Education

Master Of Computer Applications
Present | Mysore Open University

Bachelor Of Computer Applications
Oct 2022 | Davangere University

Design Process

- User-Flow Journey
- Card Sorting
- Information Architecture
- A/B Testing
- Design Handoff
